Introduction

This Project aims to do overall testing like functional testing, GUI testing on website to check quality of application. It helps to improve quality of website and saves time for manually doing this testing. In this project our main focus is to check functionalities available on website. Also it includes title check and all links count with their working status.

Software Requirements:

Operating System : Windows 10

Browser : Latest version of Firefox

Platform : Eclipse IDE

Automation Tool and Language : Selenium WebDriver, Java

Files : JDK, Selenium Jar files, Common IO file

TC01: Launch the browser and open DriftCoffee Kitchen website.

Selenium Webdriver Test Script:

```
WebDriver w=new FirefoxDriver();  
  
w.get("https://driftcoffee.kitchen");  
  
Thread.sleep(2000);  
  
//getCurrentUrl  
  
System.out.println("Current URL is: " + w.getCurrentUrl());  
  
//getTitle  
  
System.out.println("Title of page is: " + w.getTitle());
```

TC02: To check the functionality of Login button.

Selenium Webdriver Test Script:

```
w.findElement(By.linkText("Log in")).click();
Thread.sleep(2000);
```

TC03: To check and display the current URL of Login Page.

```
System.out.println("Current URL of Login Page: " + w.getCurrentUrl());
```

TC04: To check and display the Title of Login Page.

```
System.out.println("Title of Login Page: " + w.getTitle());
```

TC05: To check the functionality of Create Account button with valid name, email and password.

Selenium Webdriver Test Script:

```
w.findElement(By.linkText("Create account")).click()  
w.findElement(By.id("first_name")).sendKeys("Shivangi");  
w.findElement(By.id("last_name")).sendKeys("Tribhuvan");  
w.findElement(By.id("email")).sendKeys("shiv@gmail.com");  
w.findElement(By.id("password")).sendKeys("shivangi12");  
  
w.findElement(By.xpath("//*[@id='create_customer']/div[5]/input")).click();
```

The screenshot shows the Drift website's homepage. At the top, there is a teal bar with the text "WE ARE HIRING - APPLY HERE →". Below it is the Drift logo, which includes the word "DRIFT" and a circular emblem. To the right of the logo is a "Cart (0)" link. The main navigation menu includes links for "Drift App", "Order Now", "Cafes +", "Shop", "Jobs", "More +", and "Log in". Below the menu, there are three promotional banners: "\$3 Flat Rate Shipping on Coffee", "Drift Loyalty Earn rewards!", and "Free Shipping on Gift Cards Purchase Here". The central part of the page features a "Create Account" form. It contains four input fields with placeholder text: "Shivangi", "Tribhuvan", "shiv@gmail.com", and "*****" (representing a password). Below the form is a large teal "CREATE" button. Underneath the button, there is a link "or Return to Store". In the bottom right corner, there is a small box containing a blue and white logo and the text "Privacy | Terms".

TC06: To check the functionality of Sign-In button with valid email and password.

Selenium Webdriver Test Script:

```
w.findElement(By.linkText("Log in")).click();
Thread.sleep(2000);

w.findElement(By.id("customer_email")).sendKeys("shiv@gmail.com");
w.findElement(By.id("customer_password")).sendKeys("shivangi12");

w.findElement(By.xpath("//*[@id='customer_login']/div[3]/p/input")).click()

System.out.println("Login Successfully Done");
```

TC07: To check the functionality of Return to store option.

```
w.findElement(By.linkText("Return to Store")).click();
```

TC08: To check the functionality of Your Account option.

```
w.findElement(By.linkText("Your Account")).click();
```

TC09: To check the functionality of View Address option.

```
w.findElement(By.xpath("//*[@id=\"view_address\"]")).click();
```

TC10: To check the functionality of Add a New Address option with valid data.

```
w.findElement(By.linkText("Add a New Address")).click();  
  
w.findElement(By.name("address[first_name]")).sendKeys("Shivangi");  
  
w.findElement(By.name("address[last_name]")).sendKeys("Tribhuvan");  
w.findElement(By.name("address[company]")).sendKeys("TCS");  
w.findElement(By.name("address[address1]")).sendKeys("Niwara Nagari");  
w.findElement(By.name("address[address2]")).sendKeys("Niwara Nagari");  
w.findElement(By.name("address[city]")).sendKeys("Pune");
```

Select s=new Select(w.findElement(By.name("address[country]")));
s.selectByIndex(1);

```
w.findElement(By.name("address[zip]")).sendKeys("411000");  
w.findElement(By.name("address[phone]")).sendKeys("8888888888");  
w.findElement(By.name("address[default]")).click();
```

```
w.findElement(By.xpath("//*[@id='address_form_new']/div/p/input")).click()  
; Thread.sleep(2000);
```

TC11: To check the functionality of Return to Account Details option.

```
w.findElement(By.linkText("Return to Account Details")).click();
```

```
w.findElement(By.xpath("//*[@id='view_address']")).click();
```

TC12: To check the functionality of Add a New Address option with blank data and invalid mob no.

```
w.findElement(By.linkText("Add a New Address")).click();
```

```
w.findElement(By.xpath("//*[@id='address_form_new']/div/p/input")).click()
```

```
Thread.sleep(2000);
```

TC13: To check the functionality of Logout button.

```
w.findElement(By.linkText("Return to Account Details")).click();  
w.findElement(By.linkText("Log out")).click();  
System.out.println("Logout Successfully Done");
```

TC14: To check the functionality of More Links .

Selenium Webdriver Test Script:

```

Autumn Hall

We are a vibrant coffee cafe taking a fresh, new approach to the food and coffee experience in Wilmington. Our second cafe opened in Autumn Hall, Wilmington August of 2017. The bright, open design is accented by natural elements and modern lighting. Our shop bears a neighborhood vibe with front and back entry-ways, outdoor seating, and tree-lined sidewalks extending to one of Wilmington's traditional coastal communities: Autumn Hall.

The screenshot shows a web browser window displaying a blog post from the website driftcoffee.kitchen/blogs/news/tagged/coffee. The title of the post is "Summer Coldies". The main content features a large image of a "Salted Coconut Oat COLDIE" drink, which is a cold brew coffee with frothed cream and a sailboat garnish. Below the image, there is a short description: "Your New Summer Favorite Get your Cream Coldie's to break the heat this summer! With their creamy, smooth texture, this will be your go-to summer iced coffee. Delicious cold brew finished with our barista-quality, hand-shaken frothed cream. Choose from our Salted Coconut Oat Milk Coldie or the Tahitian Vanilla...". There is a "Read more" link at the bottom of this section. To the right of the main content, there are two sidebar sections: "CATEGORIES" and "EXPLORE". The "CATEGORIES" section lists: Autumn Hall (1), Coffee (2), Giveback (1), Menu (3), News and Updates (2), Order Ahead App (4), and Wilmington (2). The "EXPLORE" section lists: Order Ahead App, Cafes, Jobs, and Events. At the bottom of the page, there is a "Activate Windows" message with a link to "Go to Settings to activate Windows". Close an app on your iPhone or iPod touch

If an app won't respond or seems frozen, you can close it, then open it again.

How to close an app

You should close an app only if it's unresponsive. The way you close an app depends on the type of device that you have. Find your iPhone or iPod touch model below, then follow the steps. Or learn [how to close an app on your iPad](#).

iPhone X and later

1. From the Home Screen, swipe up from the bottom of the screen and pause in the middle of the screen.
2. Swipe right or left to find the app that you want to close.
3. Swipe up on the app's preview to close the app.
